Schooner Herman's Long Stay.

The little treasure schooner Herman still lies at Sorenson's wharf. She has now been in this port for nearly a month and has been ready to sail for about ten days but no one aboard of her seems to have any idea as to when she is going. Her passengers spend their time in the chairs on her cosy canvas-covered deck and do not seem to have the slightest of troubles. Captain Brown's ill-health may be one of the causes of the vessel's detention.

Anchors Not Very Large.

The starboard anchor of the schooner John G. North which had such a tussle with a storm at Punaluu still bangles from the vessel's bow. One part of it is broken so that it is now useless. Many people who saw it yesterday express surprise that such a small anchor was capable of withstanding as much strain as the vessel caused during the blow.

Big Waves Caught Malolo

The schooner Malolo was also caught in some of the unusually rough weather during the past week. On Tuesday night, her crew saw, while off the Koolau coast, two huge waves caught her and had they come head-on she would have foundered. They attribute the waves to a marine earthquake.

BORN.

KAIWI—At Lihue, Kaula, Aug. 28, to the wife of Jas. H. K. Kaiwi Jr., a son.

Wray Taylor, Commissioner of Agriculture, has received from Prof. Koebele tops of Mexican pineapples, which he has planted at different locations at the government station in Nuanuan. The pineapples are very large and said to be of fine quality, and their adaptability for growing in Hawaii will be determined. The pineapple is known as "pina de agua."

NOTHING LIKE OIL.

"In dealing with man, remember that a spoonful of oil will go farther than a gallon of vinegar." The same may be said of children. There is nothing so good for children as the old-fashioned castor oil. However much they abhor it, it is their best medicine for disorders of the bowels. In the most severe cases of diarrhoea and dysentery, however, Chamberlain's Colic, Cholera and Diarrhoea Remedy should be given after the oil operates, and a quick cure is sure to follow. KOREA SHOULD BE HERE THIS WEEK

The agents for the Pacific Mail Steamship Company expect the new mail liner Korea to arrive on Friday or Saturday. It has been considered somewhat uncertain as to whether the vessel would arrive this week or not owing to the trouble with the government because of the Chinese crew brought to San Francisco for the Korea on the steamer Gaelic. But it is considered here that a great deal depended on the sailing of the steamer on August 20th as she had already been delayed for four days and if the schedule was to be kept up at all she would have to leave San Francisco on that date, and for this reason everything possible would be done on the coast to get her away on time.

It is not known here who the passengers of the Korea are to be as no list of bookings for the vessel's maiden run was sent down by the Alameda. It is known however that her passenger list will be a large one.

The Korea will be brought alongside the Pacific Mail wharf. There has been considerable talk as to whether the vessel will have any trouble in reaching that wharf as she draws considerable water and the steamers which make use of that wharf at present always churn the mud up to such an extent that most tourists imagine that they are steaming right over one of Hawaii's volcanoes.

Tourists to See Volcano.

When the steamer Helene of the Wilder line leaves at ten o'clock this morning for Hilo, she will probably have a big passenger list. She takes several people who are anxious to see the volcano while it is in working order. The following booked for the trip yesterday: Miss Perry, Miss A. F. Roe, Mrs. W. C. Roe, Miss C. Saxton, J. McCready, J. T. Warren, Ermine Cross, Mary Lawrence, R. C. Hartley. In addition a number of people are booked for Hilo who may go on to the volcano. They are: W. F. Whitmore, H. L. Herbert, Miss E. J. Hamilton, Miss M. Angus, Miss Fitzgerald, Miss S. Robertson, and Miss A. Whitney.

Kennedy to Go to Hawaii.

The steamer Mauna Loa which has been undergoing repairs for some time will resume her old run to Maui, Kona, and Kaula ports next Tuesday. The vessel has been completely overhauled. Her hull has been cleaned, caulked, and painted and her decks repaired. The passenger portion of the steamer has been renovated and painted and everything is now in first-class order. Manager Kennedy of the Inter-Island line will be a passenger on the vessel on her first round trip after undergoing repairs and it is said that his trip may result in several changes in the itinerary of the steamer's voyage to the windward isles.

Gertrud Sails Saturday.

The German ship Gertrud, Captain Henke, left Railway wharf yesterday and is now anchored in the stream. Captain Henke says the leak in the vessel's bottom has now been entirely stopped.

CARLETON WAS IN A BIG GALE

"Old Dad" Amesbury has come to town again and he brings along with him the ship S. D. Carleton, loaded with coal from Tacoma. The vessel took eighteen days to make the trip to this port. People say that he "brought the ship along with him" because they know very well that the Carleton would never get here in eighteen days' time if Amesbury were not at the helm.

He also brings a story of a tremendous gale. When making the Maui coast a big blow started up and followed him until he got in the leeward of Oahu. The seas were tremendous and swept all over the deep laden vessel. Amesbury kept the vessel before the gale and succeeded in running it out.

Purser Friel of the steamer Kaula which arrived from Kaula and Niihau ports yesterday also reports bad weather on the leeward side of that island.

Rain squalls and heavy wind had been experienced. The weather on Niihau was fine but in crossing the channel from Kaula the vessel encountered choppy seas and strong northeast trades.

The Carleton will discharge her cargo at Railway wharf.
